

# HALF BILLION LOAN IS OVER-SUBSCRIBED

## TURKS AND KURDS WAGING HOLY WAR

### EXTERMINATION OF ARMENIANS STILL CONTINUES

#### Board of Army Ordnance is Trying to Find Out if we are Fully Prepared

(By Associated Press.)

## EIGHT TWIRLERS TO SERVE EACH CLUB

### PHILLIES AND BOSTONS HAVE A STANDOFF IN PITCHING NUMERICAL STRENGTH

(By Associated Press.)

NEW YORK, Oct. 5.—As was the case last season, when the same cities but different clubs were involved in the world's series, Philadelphia and Boston will enter the coming struggle for the prize of the baseball universe with the same numerical strength in the pitching department. Both the Phillies and the Red Sox have eight twirlers who can be called to the mound by Managers Murah and Carrigan, but it is likely that not more than half this force of twirlers will be started during the series which begins late this week.

The Phillies' pitching staff includes Alexander, Demarest, McQuillen, Rixey, Chalmers, Mayer, Tincup and Baumgartner. The Red Sox hurling force includes Foster, Leonard, Ruth, Shore, Wood, Gregg, Collins and Hays. Several of these pitchers have not figured to any extent in the general season's play and it is possible that their names will not be found in the box scores when the final reckonings are made for the series of 1915. Those most likely to go to the mound as National league representatives are Alexander, Demarest, Mayer, McQuillen, Rixey, and Chalmers while the American league pitchers will undoubtedly be selected from Foster, Leonard, Ruth, Shore, Wood and Gregg.

## EARTH MOVES SIX TO TWELVE FEET

### KENNEDY DISTRICT THE CENTER OF QUAKE

SEISMOGRAPH AT UNIVERSITY OF NEVADA SAYS SHOCK LASTED FORTY SECONDS

The center of the great earthquake Saturday night seems to have been at Kennedy, 60 miles south of Winnemucca. Here the vertical motion of the earth was measurable in feet, rather than in decimals of inches. The Humboldt Star gives the following account of the disturbance there:

"In Kennedy nearly every building was wrecked, as were the barns at the S. Slard, W. L. Pearce and Cooper & Unlacke ranches. On this latter ranch the ground sank several feet in places and the water came up.

"Commissioner Cooper, who went out yesterday morning to bring his family to town, met them coming in. Mr. Cooper stated that for 25 miles along the foothills north of his ranch the line of a break or fissure caused by the earthquake could be seen. Along this break the ground sank from 6 to 12 feet, the appearance from a distance being as if a new roadway had been graded along the foothills.

Winnemucca itself suffered heavily, half the chimneys being thrown down or damaged, with a number of brick and adobe walls thrown down and the water main burst. A number of springs in the state dried up and others showed increased flow and higher temperature.

Prof. J. C. Jones, geologist in the Mackay school of mines at the University of Nevada, stated, according to the Gazette, that the shock lasted fully 40 seconds, but, compared with similar occurrences in this vicinity last year, was very light. It was his opinion that the earthquake was due to a slip in the formation between eastern Nevada and Salt Lake City, possibly in the country around Elko county, as the heaviest damages are reported from there.

From the duration of the shock and from the general character of the shake Prof. Jones thinks it was not due to any volcanic eruption, as has been reported.

The seismograph record taken at the university is very large and shows that the quake traveled both north and south and east and west, but was much stronger in east and west directions as all shocks have been that have been felt in this territory.

## BROWN ADDRESSES BAR ASSOCIATION

### TONOPAH ATTORNEY MADE VICE-PRESIDENT

(Special Correspondence.)

RENO, Oct. 4.—On Saturday morning the Nevada Bar association convened for the second day's session. The meeting was opened with an address by Hugh H. Brown of Tonopah, on the work of the last session of the American Bar association and the Conference of Uniform State Laws, held at Salt Lake City during the month of August. In his address Mr. Brown dwelt at considerable length on the growth of the American Bar association and the magnitude of the work it has been accomplishing through its many sections and committees.

There was a discussion on the report of the section of legal education and admission to the bar, but as there will be another meeting of the association before the legislature again convenes, and as the American Bar association is working on a draft of a similar bill, which will be given out before the next meeting of the Nevada Bar association, the proposed bill was referred back to the committee for another year's work.

The afternoon was taken up largely with amendments to the constitution and by-laws of the association, the legislative council being abolished and several minor changes made.

The nominating committee made its amended report and the following officers were elected for the ensuing year:

President, Cole L. Harwood, Reno; vice presidents, George A. Bartlett of Carson City and J. H. Evans of Tonopah; secretary, E. W. Cheney, Reno; treasurer, A. Grant Miller, Reno. The incoming president will soon name the sections and committees for the year.

In the evening the visiting members were tendered a banquet by the Bar Association of Washoe County at the Riverside Hotel. A. Grant Miller presided as toastmaster, and the principal toasts responded to were: "The Lawyer—Out of Politics and Into Mining," former Governor Tasker L. Oddie; "The Practice of the Law—As It Used to Be," Senator H. V. Morehouse; "The Nevada Bar Association," Judge Cole L. Harwood; "Side Lights on the Judiciary," Chief Justice Frank H. Norcross.

The next meeting will be held at Reno at a time to be hereafter fixed by the executive committee.

## THE STRANGE CASE OF TWO MICHAEL KOLAKS

### NO INTENT TO DO WRONG BUT DEAD AND BLIND MEN CONFUSE THEIR ESTATES

Through the appointment by Judge Averill this afternoon of Mrs. Victoria Kolak as administratrix on the estate of her deceased husband, Mike Kolak, a rather complicated financial tangle may easily be unraveled.

It appears that there were two Mike Kolaks in Tonopah, one of whom was recently deceased, while the other, who still resides here, is totally blind. Before the death of the one whose estate is to be administered upon he sought to aid his sightless relative by signing the latter's checks, which were drawn for his sustenance. He also signed his own checks, each having a similar amount of money on deposit. Now that one of the Kolaks is dead, the living one finds that his deposit has had charged against it some of the checks that were intended to be drawn against the dead man's account. Mrs. Kolak's signature will be needed on a number of these checks as administratrix in order to secure for the blind Kolak, who lost his sight in an accident in the Silvertop mine, his money that he may be able to exist without accepting charity. It is understood that the most friendly relationships prevail and that this detail will be easily straightened out and all will be serene.
